Dear Ms Hall and Ms Lott

RE: Integrative medicine: Essential to support the fight against COVID-19

Thank you for your informative letter received by the Minister for Health, the Hon. Natasha Fyles MLA on 14 September, 2020. Your correspondence has been forwarded to the department to provide a response. I note your request to consider intergrative medicine and the evidence provided as effective interventions to build population health and resilience.

NT Health policies and strategies are built on local, national and international evidence based practice and research with the aim to improve the health and wellbeing of Territorians. The focus is on preventative population health action that assists, encourages and enables Territorians to make healthy lifestyle choices

Thank you for taking the time to write to the Minister and for bringing this matter to my attention.

Yours sincerely

Jo Norton
A/Deputy Chief Executive
October 2020
